NEW ARRIVALS

R.V.G. DENTAL IMAGING : Modern digital imaging solution for intra oral dental radiography. Its advanced CMOS technology provides excellent image quality. Comfortable to use both for the dentist and the patient.

ENDO MOTOR : A smarter and safer instrument. Helps in providing painless and single-sitting root canal treatment.

INTRA ORAL CAMERA : The device helps in early detection of dental health problems. It can reveal images of the teeth from angles previously unseen making the treatment more appropriate.

A Centre of Excellence providing Cost-Effective and Reliable Treatment with the benefit of State-of-the Art facilities
